
CONCRETE PROTECTION ACADEMY

SPEAKER PROFILE

Mike Rublaitus
Technical Product Manager
Titan Environmental

Mike is a seasoned industry expert with over 25 years of specialized experience in tunnel construction, wastewater management, residential land development, and concrete protection. With a robust background in civil engineering and a keen understanding of complex infrastructure systems, Mike has played a pivotal role in the successful execution of numerous high-profile projects across Canada, the USA, and international markets.

His expertise in concrete protection has been instrumental in safeguarding critical infrastructure against the detrimental effects of corrosion, abrasion, and chemical degradation. His proficiency in applying advanced protective coatings and durable concrete repair techniques has enabled the preservation and longevity of various structures, ranging from bridges and dams to sewage treatment facilities and underground tunnels.

Mike is well-known for his unwavering dedication to excellence and his ability to handle complex technical situations. He continues to push the boundaries of innovation and establish industry norms in the fields of concrete protection, wastewater management, and tunnel engineering. His commitment to sustainable techniques and all-encompassing approach to infrastructure development have established him as a respected leader in the international engineering community.
